

Cyber Readiness **Beyond Compliance**

Cyberstar is a cyber workforce management platform that provides real-time qualification tracking, automated verification, and workforce analytics to give leaders clear, auditable proof of mission readiness.

DCWF / 8140 Alignment

- Automated work role tracking & reporting
- Effortless DCWF policy change syncing
- Role-based & privileged access requirements
- Custom roles & component-specific configurations
- Residential requirement policy management

Qualification Management

- Qualification, waiver, and exception tracking
- Commercial certification auto validation
- Evidence-backed qualification record management
- Automated alerts for overdue and soon-to-expire qualifications

Defense-Ready Platform

- FedRAMP Authorized
- P-ATO in process with active IL5 ATOs
- Zero-trust, RBAC architecture
- COTS SaaS Solution available via resellers & GSA Advantage!®
- Already deployed as a proven solution in DoW environments

Trusted by the best:

Cyberstar can help your team:

Replace manual overhead with accurate, centralized qualification management

Keep pace with evolving DCWF / 8140 requirements

Track cyber readiness with actionable dashboards and audit-ready reporting systems

Cyberstar's COTS platform achieves the latest DoW DCWF 8140 objectives out of the box

Reduce the cost of compliance

- ✓ Easily handles the complexities and shifting requirements of DCWF work roles at the lowest cost
- ✓ Tracks compliance continuously across 74 work roles, thousands of KSATs, and 300+ qualification options
- ✓ Integrates with training, HR, & manpower sources

DoW cyber workforce industry leader

- ✓ Supports 8140/DCWF, IA/8570, NICE, & custom frameworks
- ✓ Tracks & reports on training objectives for mission readiness
- ✓ Defense-native platform, created for DoW agencies & branches and the defense industrial base

Ready to buy & easy to authorize

- ✓ Conforms with DoW's software fast track (SWIFT) initiative
- ✓ Licensed, DoW- and commercially deployed COTS platform works out of the box
- ✓ Available on GSA Advantage and through resellers
- ✓ Fed RAMP & IL5 authorized, P-ATO in-process

Simple, secure, modern

- ✓ DoW cloud deployed with environments up to IL5
- ✓ Digital identity and access management - CAC enabled
- ✓ Zero-trust architecture & security-first data strategy
- ✓ Deployable in classified environments

Trusted by the best:

The basic structure of the **qualification matrices was built-in to Cyberstar** already, the **reporting options already aligned with DoD CIO requirements**, and **management of the cyber work role codes included.**"

DISA Brand Justification **2024**

Cyberstar stood out...because it was **specifically designed** to accommodate the **complex and detailed structure of the 8140 requirements.**"

SOCOM Brand Justification **2024**

Cyberstar's software is the **sole solution compatible with existing DoD databases... if Cyberstar was not procured, DCMA would be unable to effectively implement the requirements of the DoD 8140 policies.**"

DCMA Brand Justification **2025**
